

“Generosity Multiplier”

Pastor Miles McPherson / November 11, 2018

Encouragement:

Pastor Miles interviewed our Rock Financial Life (RFL) teacher Dave Wessels this past Sunday. They discussed the importance of being generous.

- What does it mean to live a life of thankfulness?
- What does it mean to be generous to others?
- What are some examples of living an unhealthy lifestyle?
- What are some examples of living a healthy lifestyle?
- What does healing mean to you?

After asking these questions in your rGroup use the definitions below as a resource.

- Thankfulness is an expression of being aware, pleased, or satisfied with a received benefit.
- Generous is something given in abundance, bountifully, or unselfishly.
- Unhealthy is when something is not working according to its design.
- Healthy is when something is working according to its design.
- Healing is the process of aligning how something functions with its design.

Scripture:

Read Matthew 14:13-21

- What miracle did Jesus do in this passage?
- Was this an example of generosity? Why or Why Not?
- How could this passage of scripture apply to our lives?
- Why don't we give more consistently or generously? Is it because of a lack of trust, lack of ability, lack of understanding, or all of these?
- Giving is an opportunity, not an obligation. Read 2 Corinthians 9:7.

Prayer:

Father God, we thank you for our time together today. We thank you for your Word and clearly showing us the example through Jesus of what it means to be generous and what multiplication can really look like through generosity.
